Subject Index of Volume 33

Acyclovir	Comparative efficacy of three antiviral drugs in mice herpetic keratitis *(Inoue et al)*	125
Adult T-cell leukemia	Ocular manifestations in patients infected with human T-lymphotropic virus type I *(Ohba et al)*	1
	Noninfectious anterior uveitis in patients infected with human T-lymphotropic virus type I *(Nakao et al)*	472
Aging	Aging changes in lipofuscin, lysosomes and melanin in the macular area of human retina and choroid *(Hayasaka)*	36
	Aqueous flare intensity and age *(Oshika et al)*	237
	Assay of S-antigen immunoreactivity in mammalian retinas in relation to age, ocular dimension and retinal degeneration *(Broekhuyse et al)*	243
Aldose reductase inhibitor	The effect of aldose reductase inhibitor, Statil, on hyperpermeability of iridial vessels in experimental galactosemic rats *(Terubayashi et al)*	343
Anterior uveitis	Noninfectious anterior uveitis in patients infected with human T-lymphotropic virus type I *(Nakao et al)*	472
Aqueous cell	Aqueous flare and cell measurement using laser in endogenous uveitis patients *(Ohara et al)*	265
Aqueous flare	Aqueous flare intensity and age *(Oshika et al)*	237
	Aqueous flare and cell measurement using laser in endogenous uveitis patients *(Ohara et al)*	265
	Changes in aqueous flare and cells after mydriasis *(Oshika et al)*	271
	Quantitative assessment of aqueous flare and cells in uveitis *(Oshika et al)*	279
Aqueous humor	Fibrinolytic activity and localization of plasminogen activator in bovine vitreous body and aqueous humor *(Hayashi et al)*	66
Biomatrix	Isolation and characterization of retinal and choroidal biomatrix *(Matsuo)*	367
Bunazosin	Effects of intraocular pressure change on movement of FITC-dextran across vitreous-aqueous interface *(Sugiura et al)*	441
Calcium ions	Calcium-induced opacification of rat lens β-crystallin solution: Its susceptibility to H_2O_2 oxidation *(Bando et al)*	204
Capsular glaucoma	Phakodonesis in capsular glaucoma: A clinical and electron microscopic study *(Futa et al)*	311

Cataract	Quantitation of high molecular weight protein aggregates in opaque and transparent parts from the same human cataractous lens *(Kodama et al)*	114
	Characterization of peptide inducing cataractogenesis in lens of hereditary cataractous rat (ICR/f rat) *(Kamei et al)*	348
	Lens crystallin reactive protein in the aqueous humor of cataract patients *(Fujiwara)*	418
	Quantitative evaluation of ERG before cataract surgery *(Cruz et al)*	451
Chloride ion	Histochemical observation of distribution of chloride ion around ciliary epithelium *(Yamashita et al)*	413
Choriocapillaris	Pseudopodia of choriocapillary endothelium *(Yamamoto et al)*	327
Choroidal vasculature	Choroidal vascular repair following orange dye laser photocoagulation *(Katoh et al)*	166
Ciliary body	The fine surface architecture of the primate ciliary body with special regard to the pars plana *(Sato)*	251
Ciliary epithelium	Histochemical observation of distribution of chloride ion around ciliary epithelium *(Yamashita et al)*	413
Ciliary muscle	Scleral spur and ciliary muscle in man and monkey *(Hamanaka)*	221
Circle of Zinn	Letters to the Editor	519
Cornea	Differential regulation of fibronectin synthesis in three different types of corneal cells *(Awata et al)*	132
	Localization of ^{3}H-proline, ^{35}S-sulfate and ^{3}H-glucosamine in rat cornea following epithelial removal: Epithelio-stromal interaction *(Nakayasu)*	185
Cyclophosphamide	Experimental automimmune uveoretinitis (EAU) in rats: Isolation of S-antigen, EAU susceptibility of rat strains, genetic control of EAU induction, and effects of cyclophosphamide and irradiation on EAU *(Suzuki et al)*	13
Cyclosphorine	Penetrating keratoplasty in the rat: A model for the study of immunosuppressive treatment of graft rejection *(Herbort et al)*	212
	Cyclosporine G and D in experimental autoimmune uveoretinitis in the rat *(Kawashima et al)*	425
Cytoskeleton	Immunofluorescence studies of the cytoskeletal and contractile elements in cultured human trabecular cells *(Tamura et al)*	95
	Influence of sulfhydryl agents on cytoskeleton in cultured human trabecular cells *(Iwamoto et al)*	318

Drug delivery	Intravitreal drug therapy *(Peyman et al)*	392
	Hyperthermia and temperature-sensitive liposomes: Selective delivery of drugs into the eye *(Khoobehi et al)*	405
Dye laser	Choroidal vascular repair following orange dye laser photocoagulation *(Katoh et al)*	166
Electroretinogram	Quantitative evaluation of ERG before cataract surgery *(Cruz et al)*	451
Experimental autoimmune uveoretinitis (EAU)	Experimental autoimmune uveoretinitis (EAU) in rats: Isolation of S-antigen, EAU susceptibility of rat strains, genetic control of EAU induction, and effects of cyclophosphamide and irradiation on EAU *(Suzuki et al)*	13
	Experimental autoimmune uveoretinitis (EAU) in rats: Abrogation of resistance to the induction and augmentation of the inflammation by pertussis toxin *(Suzuki et al)*	27
	Cyclosporine G and D in experimental autoimmune uveoretinitis in the rat *(Kawashima et al)*	425
Fibronectin	Differential regulation of fibronectin synthesis in three different types of corneal cells *(Awata et al)*	132
FITC-dextran	Effects of intraocular pressure change on movement of FITC-dextran across vitreous-aqueous interface *(Sugiura et al)*	441
G1 program	A comparison of three methods for abbreviating G1 examinations *(Funkhouser et al)*	288
	A comparison of eight test location configurations for estimating G1 mean defect values *(Funkhouser et al)*	295
Herpetic keratitis	A case of simultaneous bilateral herpetic epithelial keratitis *(Fan et al)*	120
	Comparative efficacy of three antiviral drugs in mice herpetic keratitis *(Inoue et al)*	125
Horizontal eye movement	Retrograde transneuronal labeling of premotor neurons of horizontal eye movement system in the cat using wheat germ agglutinin conjugated with horseradish peroxidase *(Ozaki et al)*	85
HTLV-I	Ocular manifestations in patients infected with human T-lymphotropic virus type I *(Ohba et al)*	1
	Pigmentary retinal degeneration in patients with HTLV-I-associated myelopathy *(Nakao et al)*	383
	Noninfectious anterior uveitis in patients infected with human T-lymphotropic virus type I *(Nakao et al)*	472
Indocyanine green	Clinical application of indocyanine green angiography to choroidal neovascularization *(Hayashi et al)*	57

Interphotoreceptor retinoid-binding protein (IRBP)	Establishment of anti-idiotypic monoclonal antibodies against anti-interphotoreceptor retinoid-binding protein monoclonal antibody *(Abe et al)*	482
Intraocular melanoma	Experimental model for metastasis of intraocular melanoma: Preventive role of natural killer cells *(Yokoyama et al)*	76
IOL	Immunohistochemical study of cellular response on the intraocular lens surface *(Kanagawa et al)*	337
Iridial vessel	The effect of aldose reductase inhibitor, Statil, on hyperpermeability of iridial vessels in experimental galactosemic rats *(Terubayashi et al)*	343
Lens	Calicium-induced opacification of rat lens β-crystallin solution: Its susceptibility to H_2O_2 oxidation *(Bando et al)*	204
	Lens crystallin reactive protein in the aqueous humor of cataract patients *(Fujiwara)*	418
Lipofuscin	Aging changes in lipofuscin, lysosomes and melanin in the macular area of human retina and choroid *(Hayasaka)*	36
Liposomes	Hyperthermia and temperature-sensitive liposomes: Selective delivery of drugs into the eye *(Khoobehi et al)*	405
Lysozyme	Effect of topical anesthesia on secretion of lysozyme and lysosomal enzymes in human tears *(Shiono)*	375
Macula	Aging changes in lipofuscin, lysosomes and melanin in the macular area of human retina and choroid *(Hayasaka)*	36
Melanin	Aging changes in lipofuscin, lysosomes and melanin in the macular area of human retina and choroid *(Hayasaka)*	36
Natural killer cells	Experimental model for metastasis of intraocular melanoma: Preventive role of natural killer cells *(Yokoyama et al)*	76
Penetrating keratoplasty	Penetrating keratoplasty in the rat: A model for the study of immunosuppressive treatment of graft rejection *(Herbort et al)*	212
Pertussis toxin	Experimental autoimmune uveoretinitis (EAU) in rats: Abrogation of resistance to the induction and augmentation of the inflammation by pertussis toxin *(Suzuki et al)*	27
Phacolytic glaucoma	Electron microscopic observation of the cells floating in the anterior chamber in a case of phacolytic glaucoma *(Ueno et al)*	103
Pigmentary retinopathy	Pigmentary retinal degeneration in patients with HTLV-I-	

	associated myelopathy *(Nakao et al)*	383
Plasminogen activator	Fibrinolytic activity and localization of plasminogen activator in bovine vitreous body and aqueous humor *(Hayashi et al)*	66
Preretinal membranes	Electron microscopic observation of preretinal membranes *(Yamamoto et al)*	151
	Preretinal membrane formation in rabbit eyes after intravitreal transplantation of cultured astrocytes *(Mishima et al)*	501
Pseudoexfoliation syndrome	Pseudoexfoliation syndrome in Chinese *(Ye et al)*	300
Pseudoexfoliative material	Phakodonesis in capsular glaucoma: A clinical and electron microscopic study *(Futa et al)*	311
Pulsed YAG laser	Applications of combination wavelength (1060-nm and 530-nm) and pulsed Nd:YAG laser for contact laser surgery *(Liu et al)*	43
Pupillary dilation	Properties of the pupillary dilation produced by the humoral factor in the pupillary reflex dilation: An experimental study in the cat *(Shoumura et al)*	490
Retina	Assay of S-antigen immunoreactivity in mammalian retinas in relation to age, ocular dimension and retinal degeneration *(Broekhuyse et al)*	243
	Subretinal choroidal neovascularization as a response to penetrating retinal injury in the pigmented rabbit *(Hsu et al)*	358
	Isolation and characterization of retinal and choroidal biomatrix *(Matsuo)*	367
Retinal tear	Diagnosis and management of massive vitreous hemorrhage caused by retinal tear *(Katsumi et al)*	177
Retinoblastoma	Cancer in relatives of retinoblastoma patients *(Cohen et al)*	173
Retrograde transneuronal transport	Retrograde transneuronal labeling of premotor neurons of horizontal eye movement system in the cat using wheat germ agglutinin conjugated with horseradish peroxidase *(Ozaki et al)*	85
S-antigen	Experimental autoimmune uveoretinitis (EAU) in rats: Isolation of S-antigen, EAU susceptibility of rat strains, genetic control of EAU induction, and effects of cyclophosphamide and irradiation on EAU *(Suzuki et al)*	13
	Assay of S-antigen immunoreactivity in mammalian retinas in relation to age, ocular dimension and retinal degeneration *(Broekhuyse et al)*	243

Scleral spur	Scleral spur and ciliary muscle in man and monkey *(Hamanaka)*	221
Subretinal choroidal neovascularization	Subretinal choroidal neovascularization as a response to penetrating retinal injury in the pigmented rabbit *(Hsu et al)*	358
Tear	Effect of topical anesthesia on secretion of lysozyme and lysosomal enzymes in human tears *(Shiono)*	375
Topical anesthesia	Effect of topical anesthesia on secretion of lysozyme and lysosomal enzymes in human tears *(Shiono)*	375
Trabecular cell	Immunofluorescence studies of the cytoskeletal and contractile elements in cultured human trabecular cells *(Tamura et al)*	95
	Influence of sulfhydryl agents on cytoskeleton in cultured human trabecular cells *(Iwamoto et al)*	318
Uveal neoplasm	Eye wall resection in the management of uveal neoplasms *(Peyman et al)*	458
Uveitis	Aqueous flare and cell measurement using laser in endogenous uveitis patients *(Ohara et al)*	265
Vitreous-aqueous interface	Effects of intraocular pressure change on movement of FITC-dextran across vitreous-aqueous interface *(Sugiura et al)*	441
Vitreous	Fibrinolytic activity and localization of plasminogen activator in bovine vitreous body and aqueous humor *(Hayashi et al)*	66
	Measurement of vitreous oxygen tension in human eyes *(Sakaue et al)*	199
Vitreous hemorrhage	Diagnosis and management of massive vitreous hemorrhage caused by retinal tear *(Katsumi et al)*	177
